Drakes Branch, Va., March 2.—Charlotto county contests the claim of Mecklenourg as being the leader in good roads in the State.

During the secsion of the General Assembly of 1998, Berkeley D. Adams, who was then and is now our representative, secured the passage of an act allowing the people of this county to vote on a bond issue of \$190,000 to the purpose of building permanent reads. Under the provisions of the act the proceeds of the bond issue were to be divised among the different magisterial districts of the county according to taxable values.

The election was held in January, 1999, and the people endorsed the bond issue by a very large majority. The bends were issued and there was not trouble in selling them. Work on the good roads, which, was under the general supervision of the State Highway, Commensioner, was begin in the early part of 1910, and is still going on. The roads being built are what are know as the top soil type, and ser the passage of the county and the poople perfect autisfaction.

The convict force is now working from Charlottee Court of the work of the county and have completed about twelve miles of road.

The condition the desired was not the southern Railway, to Wylinesburg and on to Red Oak, a distance of fourteen and one-naif miles, and the have completed about twelve miles of road.

The county will probably have more than 125 miles of excellent road completed during the next four or five years. All the people are highly pleased with the roads built so far and if it becomes necessary they would of clearing house benefit to the county of contraction from the fourteen of clearing house benefit to the county of county will probably have more than 125 miles of excellent road county of the propose of the [Special to The Times-Dispatch.]
